FRIEDHELM LOH GROUP

Rittal – The System.

Faster – better – everywhere.

Hygienic design compact enclosures can be wall mounted with the HD system accessories.

Hygienic design control and monitoring, consoles, and support arms.

Hygienic design large system enclosures and accessories.

Climate control outside the hygiene zone

Rittal Chillers can supply the air/water heat exchangers in the hygiene zone and the LCP in the data center with the required cooling water.

Air to Water Heat Exchangers

keep your systems cool using in-house chilled water or Rittal water chillers. No more clogged filters or replacing dirty filters.

Hygienic Design Compact Enclosures and Terminal Boxes

can be machine mounted with the HD system accessories.

ENCLOSURES

POWER DISTRIBUTION

CLIMATE CONTROL

One-stop shop for multiple solutions and optimum processes

Different enclosure solutions are needed for the various locations inside a food and beverage production facility. From enclosures that can withstand frequent washdowns on the factory floor to the IT infrastructure in the data center, Rittal has the right solution to protect your sensitive controls and electronic equipment.

Edge Data Center

IT infrastructure for maximum computing power with short latencies, located close to the production.

TS8 Enclosure System

Enclosures and climate control solutions for outside the washdown or hygienic zone. Available in Stainless Steel or Carbon Steel.

IT INFRASTRUCTURE

SOFTWARE & SERVICES

Hygienic standards for high productivity and reliability

“Rittal – The System.” stands for cleverly thought-out system solutions for hygienic production in the food industry. Particularly in open processes, where the resistance of the gasket to detergents and disinfectants is crucial, it is vital for the production plant to be equipped with optimized enclosures, terminal boxes and command panels.

The Rittal Hygienic Design for food safety is based on:

European standards and directives

- EN 1672-2-2009-07 Food machinery/General design principles/ Part 2: Hygiene requirements
- EN ISO 14 159:2008-07 Safety of machinery – Hygiene requirements for the design of machinery
- EN 16001:2009-06 Energy management to improve energy efficiency
- Machinery directive 2006/42/EC binding
- Document 13 EHEDG guideline on the hygienic design of apparatus for open processes, prepared in collaboration with 3-A and NSF International

EU regulations

- 852/2004 on the hygiene of raw materials and food products
- 853/2004 specific hygiene rules for food of animal origin
- 854/2004 specific rules for the organization of official controls on products of animal origin intended for human consumption
- 1935/2004 on materials and articles intended to come into contact with food

Decide for yourself what is important.

Rittal Hygienic Design boosts operational hygiene

- Reduces the use of C&D agents
- Optimizes cleaning results
- Ensures higher productivity
- Minimizes risks
- Increases energy efficiency (CO2 footprint)

All terminal boxes and compact enclosures are cULus listed.

The DGUV test certificates are valid for the following products:

- NV 16201 terminal boxes HD
- NV 13091 compact enclosures HD
- NV 17040 air/water heat exchangers HD

Cleanliness assured

Terminal boxes and compact enclosures in Hygienic Design (HD) are key elements in the design of open processes in the food industry and clean rooms due to their ease of cleaning and inspection. Compatible accessories such as wall spacer brackets and HD-compatible cable glands complete the range. If you have specific requirements, "Rittal – The System." is sure to have the right solution.

Hygienic Design terminal boxes and compact enclosures are crucial elements when designing open processes in the food and beverage industry and for hygienic zones where ease of cleaning is crucial.

- 1** Silicone gasket: Highly resistant to aggressive detergents, hot water, high pressure, and can be easily replaced in minutes
- 2** Inclined roof: Prevents pooling of liquids, and ensures that surfaces are readily visible
- 3** Slot-free design – No hollow spaces between the enclosure and door
- 4** Fine brushed surface finish makes it easier to clean: Fully sealed enclosures with a uniform 400 grain size brushed finish for a uniform surface roughness of $< 8 \mu\text{m}$
- 5** Easy-to-clean lock system: Tailored to the requirements of the food and consumables industry
- 6** Interior installation:
 - Attachment points for fitting interior installation rails, for individual installation in the depth with HD compact enclosures
 - HD terminal boxes can accommodate support rails and KL mounting plates, thanks to the flexible 6.25 mm pitch pattern of installation holes

Silicone gasket

- The joint free silicon gasket seals the entire perimeter of the door
- Easy to replace and inspect
- Guides and fixes the lid to the screw fasteners
- Compliant with FDA Guideline 21 CFR 177.2600

Interior configuration

- Hole pitch of 6.25 mm for greater flexibility
- KL support rails and mounting plates can be fitted directly

Hinges and gasket

- Hinges that are inside the sealing zone create an exceptionally easy-clean design on the outside
- The joint free silicon gasket seals the entire perimeter of the door
- Installed gaskets are easy to replace
- No external cavity between enclosure and door
- Gasket dyed blue to clearly distinguish it from food particles

Screw fastener

- Captive
- With external gasket
- Hexagon shape for perfect cleanliness

Lock and lock insert

- External parts made of stainless steel
- Material and shape allow easy and reliable cleaning

External Angles

- The roof angled forwards by 30° on compact enclosures prevents objects from being deposited on it
- All-around tilt for terminal boxes
 - Enclosure: 3°
 - Lid: 10°
- Is easily inspected
- Allows fluids to drain off rapidly

Hygienic Design: Push Button Boxes

Design:

- All four sides have 3° slope from back to front
- Captive fasteners keep them from falling out when removing cover

Material:

- Enclosure and cover: Stainless steel 1.4301 (AISI 304) 1.5mm
- Mounting bracket: Sheet steel, zinc-plated, passivated, 2.0mm
- Screw plug: Stainless steel
- Gasket: Silicone, compliant with FDA Guideline 21 CFR 177.2600

Surface finish:

- Enclosure and cover: Brushed grain 400, peak-to-valley height <0.8µm
- Gasket: Blue, dyed (RAL 5010)

Protection category IP to IEC 60 529:

- IP 66
- IPX 9

Protection category IP to DIN 40 050-9:

- IP 69K

Protection category NEMA:

- NEMA 13
- NEMA 4X
- NEMA 3R

Supply includes:

- Enclosure of all-around solid construction
- Cover
- Mounting bracket (pre-assembled)
- Gasket and screw plug (supplied loose)

Approvals:

- UL
- cUL

Hygienic control and monitoring

Command panels and printer enclosures play a key role in the decentralized control and monitoring of open processes in the food and beverage industry. Their functional design means that standard commercially available PC components such as printers, monitors, and label printers are easily and securely integrated into the production process. Can be used together or separately for machine controls, monitoring, programming, creating kiosks, and other applications.

Silicone gasket

- The joint free silicon gasket seals the entire perimeter of the door
- Easy to replace and inspect
- Compliant with FDA Guideline 21 CFR 177.2600
- Gasket dyed blue to clearly distinguish it from food particles

Easy monitoring

- Large visible area with inset and sealed polycarbonate window in the door
- Screwed-fastened mounting plate with holes for VESA 75 and 100 connection
- Attachment of monitors of up to 24"

User-friendly design

- Enclosure tilted forwards by 3° – to allow liquids to drain off reliably whilst cleaning
- for the support of keyboards during production
- Component shelves with telescopic slides for easy integration of computers or e.g. label printers
- Interior installation rails allow the installation of additional component shelves

Modular combination

- Connection component for combining a command panel and a printer enclosure into a complete PC enclosure
- Integral drilled holes with a diameter of 40 mm for easy cable entry with connectors

Hygienic Design: Production Data Cabinet

Material:

- Stainless steel 1.4301 (AISI 304)
- Enclosure: 1.5 mm
- Door: 2.0 mm
- Lock inserts: Stainless steel 1.4301 (AISI 304)
- Gasket: Silicone, compliant with FDA Guideline 21 CFR 177.2600

Surface finish:

- Brushed, grain 400, $R_A < 0.8 \mu\text{m}$
- Gasket: Blue, dyed (RAL 5010)

Protection category IP to IC 60 529:

- Enclosure top: IP 66
- Enclosure bottom: IP 66

Protection category IP to DIN 40 050-9:

- Enclosure top: IP 59K
- Enclosure bottom: IP 69K

Console supply includes:

- Roof angled forwards by 30°
- Door with integrated polycarbonate pane for monitor; compartment with screw-fastened mounting plate with holes for VESA connection 75 and 100
- Viewing window: polycarbonate
- Mounting plate height-adjustable for screens up to 24"

Pedestal supply includes:

- Roof angled forwards by 3°, suitable as a support rest or for keyboard installation
- Component shelf spray-finished, pull-out and height-adjustable with side punched rails

Hygienic Design: Fire Extinguisher Enclosure

Design:

- Roof angled forwards by 30°

Benefits:

- Hygienic, hose-proof storage of fire extinguishers
- Time and cost savings thanks to simple, effective cleaning options
- Fire extinguisher is easily removed with one hand thanks to the T-handle
- Quick inventory check with the integral viewing door
- Additional uses include storage of first aid kits and defibrillators

Material:

- Enclosure and door: Stainless steel 1.4301 (AISI 304)
- Handle and lock: Stainless steel 1.4301 (AISI 304)
- Viewing window: Polycarbonate
- Gasket: Silicone, compliant with FDA Guideline 21 CFR 177.2600

Surface finish:

- Enclosure and door: Brushed, grain 400, peak-to-valley height < 0.8 µm
- Gasket: Blue, dyed (RAL 5010)

Protection category IP to IEC 60 529:

- IP 66

Protection category IP to DIN 40 050-9:

- IP 59K

Supply includes:

- Enclosure of all-around solid construction
- Door with viewing window and inserted gasket
- Interchangeable door hinge
- T-handle with 3-point lock system

Air/Water Heat Exchangers

Hygienic Design

An easy-to-clean enclosure climate control solution is now available for hygiene-critical production zones in the food and beverage industry.

- Hygienic design simplifies cleaning procedures and guarantees food safety
- Protection category IP 56/59 if correctly fitted – suitable for high-pressure and steam-jet cleaning
- Enclosure made from 1.4301 (AISI 304) stainless steel with the roof tilted forwards by 30°
- Water connections made from stainless steel 1.4301 (AISI 304)
- Suitable for use in the food industry to DIN EN 1672-2:2009

Hygienic Design: Air/Water Heat Exchanger

Air/water heat exchanger for hygienically sensitive production zones in the food and beverage industry – the optimum addition to the Rittal Hygienic Design range. The cleaning-friendly design reduces the risk of contamination and ensures food safety.

Benefits:

- Easy-to-clean, hygienic design
- A roof tilt of 30° prevents objects from being deposited on it, and allows liquids to run off quickly.
- All-around external, replaceable silicone gasket prevents the accumulation of dirt between the enclosure and the air/water heat exchanger.

Material:

- Enclosure and cover: Stainless steel 1.4301 (AISI 304)

Surface finish:

- Enclosure: Brushed, grain 400, peak-to-valley height < 0.8 µm

Protection category IP to IEC 60 529:

- IP 56/59

Protection category NEMA:

- NEMA 4X

Cooling medium:

- Water (see internet for specifications)

Supply includes:

- Fully wired ready for connection (plug-in terminal strip)
- Drilling template
- Sealing and assembly parts

Note:

- To achieve a protection category of IP 66/59 to IEC 60 529, the ingress of leakage air through the condensate discharge opening must be completely prevented.

Hygienic Design: Accessories

HD leveling feet

For HD system enclosure and HD compact enclosure.

Benefits:

- Minimizes cleaning time thanks to fully covered permanently sealed threads
- Compensation of floor inclines up to an angle of 10° thanks to flexible base
- Baying can even be achieved on sloping floors,

thanks to a large leveling range

- Design to EHEDG standards

Material:

- Stainless steel 1.4301 (AISI 304)

Load capacity:

- Max. 7000 N static per leveling foot

Supply includes:

- Assembly parts and seals

	Packs of	
Model No.	1 pc(s).	2549.00

Hygienic Design: Accessories

HD bit

for universal key 2549.500.

HD bit

	Packs of	Without key lock
Model No.	1 pc(s).	2549.510

HD T-handle

For easy opening without a key. May be exchanged in all enclosures with cam lock.

Material:

– Stainless steel 1.4301 (AISI 304)

HD T-handle

Design	Packs of	Without key lock	With key lock
Model No.	1 pc(s).	4000.065	4000.067

HD hinge

To be used in exchange in HD enclosures with internal hinges.

Material:

– Stainless steel 1.4301 (AISI 304)

Supply includes:

– Assembly parts

HD hinge

	Packs of	
Model No.	2 pc(s).	4000.130

Hygienic Design: Accessories

HD wall spacer bracket

Benefits:

- Creates space for cleaning behind the enclosure
- Shorter assembly times by eliminating the need for an all-round seal
- Improved hygiene by avoiding inaccessible dead spaces or gaps between the enclosure wall
- Rated UL Type 4X and IP69

Material:

- Stainless steel 1.4301 (AISI 304)

Supply includes:

- Assembly parts and seals

Note:

- Depending on the size of the enclosure, up to 4 wall spacer brackets are required to ensure sufficiently stable wall mounting

HD wall spacer bracket

	Packs of	in.	mm.	in.	mm.
Height		2	50.8	1.9	50

Model No.	1 pc(s).	9957.334		4000.100	

HD connection components

For combining HD command panels (4000.062) and HD printer enclosures (4000.064) into one PC enclosure.

Material:

- Console: Stainless Steel 1.4301 (AISI 304)

Supply includes:

- 2 reinforcement plates for enclosure, top
- 4 reinforcement plates for enclosure, bottom (2 for the roof, 2 for the attachment of leveling feet or supporting structure)
- 2 spacer supports with drilled hole Ø 40 mm for cable entry, height 50/45.8 mm

HD connection components

	Packs of	
Model No.	1 pc(s).	4000.066

HD pressure release

The integrated sealing membrane in pressure relief plugs largely prevents these pressure differences and the build-up of condensate, as well as protecting against the penetration of moisture from outside.

Supply includes:

- Lock Nut

Material:

- Sheet steel 1.4301 (AISI 304)

Technical Specifications:

- Connection thread M12 X 1.5
- Air permeability up to 60 liters / hour with a pressure difference of 70 mbar

Approvals:

- UL Type 4X
- IP 66 / IP69

HD pressure release

	Packs of	
Model No.	1 pc(s).	4000.300

Hygienic Design: Accessories

HD keyboard support

To support standard keyboards, including water drain hole.

Material:

– Stainless steel 1.4301 (AISI 304)

Supply includes:

– Spacer support to the enclosure

HD keyboard support

	Packs of	in.	mm.
Width		23	573
Depth		10	250
Contact surface width		22	570
Contact surface depth		7	190
Model No.	1 pc(s).	4000.072	

HD flap

For rapid access e.g. in order to change the labels.

Supply includes:

- T-handle
- Silicon gasket
- Hinges and cam lock

Material:

– Sheet steel 1.4301 (AISI 304)

HD hinge

	Packs of	
Model No.	1 pc(s).	4000.068

Hygienic Design: Accessories

Hose-proof hood

To increase the protection category

For fan-and-filter units/outlet filters. Easy cleaning

thanks to exterior silicone gasket compliant with FDA Guideline 21 CFR 177.2600.

Material:

- Stainless steel
- Silicone

Protection category IP to IEC 60 529:

- IP 56 when fitted over fan-and-filter unit/outlet filter with filter mat

Hygienic Design: Cable Gland

HD cable gland

Applications:

- Food and beverage production
- Clean room technology (e.g. pharmaceuticals)
- Biotechnology
- Chemical industry

Benefits:

- Smooth, solid exterior surfaces effectively prevent the depositing of harmful micro-organisms
- Much easier to clean, making it cost effective, compared with conventional cable glands
- EMC version enables cable shield bonding

Material:

- Lock nut: Stainless steel 1.4305 (AISI 303)
- Gasket: Conforms to FDA 21 CFR 177.2600

Protection category IP to DIN 40 050-9:

- IP 69K

Supply includes (per pack):

- 5 cable glands
- 5 lock nuts

- 1 Gasket
- 2 Cap nut
- 3 Gripper jaws
- 4 Shield spring (EMC version only)
- 5 Clamping ring
- 6 Enclosure gasket
- 7 Base with locator for assembly tool

Why use hygiene-compatible cable glands

Critical points with conventional solutions

- 1 Cable entry in front of gasket
- 2 No minimum radii on the hexagon
- 3 External threads
- 4 Gap caused by O-ring on the enclosure surface

Hygiene-compatible design features

- 1 Gasket directly at the cable entry
- 2 Compliance with minimum radii on the hexagon
- 3 No external threads
- 4 Flush termination between the cap nut and the enclosure

Assembly tool

For HD cable gland tool, for attaching cable glands in an internal thread or using lock nuts. This can be achieved either from the inside or
